Dear [Hiring Manager Name],

I am excited to apply for the [Job Title] position with [Company Name]. I bring a multidisciplinary background in creative production, video editing, graphic design, brand development, and hands-on HVACR field experience at Michael and Son Services. That mix has shaped the way I work: creative, practical, steady under pressure, and focused on making the final result clean and useful.

My portfolio includes commercial edits, documentary and interview work, student films, sports and music edits, brand identity concepts, apparel graphics, business cards, and social-ready visual assets. Through long-term self-directed practice and formal film/video coursework, I have built strong production instincts, Adobe Creative Cloud familiarity, and a habit of improving each project through feedback, revision, and attention to detail.

My HVACR field experience adds a practical layer to my creative background. Working in real job-site environments strengthened my safety awareness, communication, troubleshooting, reliability, and ability to stay composed in demanding conditions. I believe that combination would help me contribute to [Company Name] with both creative judgment and dependable follow-through.

I would appreciate the opportunity to discuss how my background, portfolio, and work ethic align with the needs of your team. Thank you for your time and consideration.

Sincerely,
Connor Atkins
